

SB 100 – Outpatient Surgery Settings

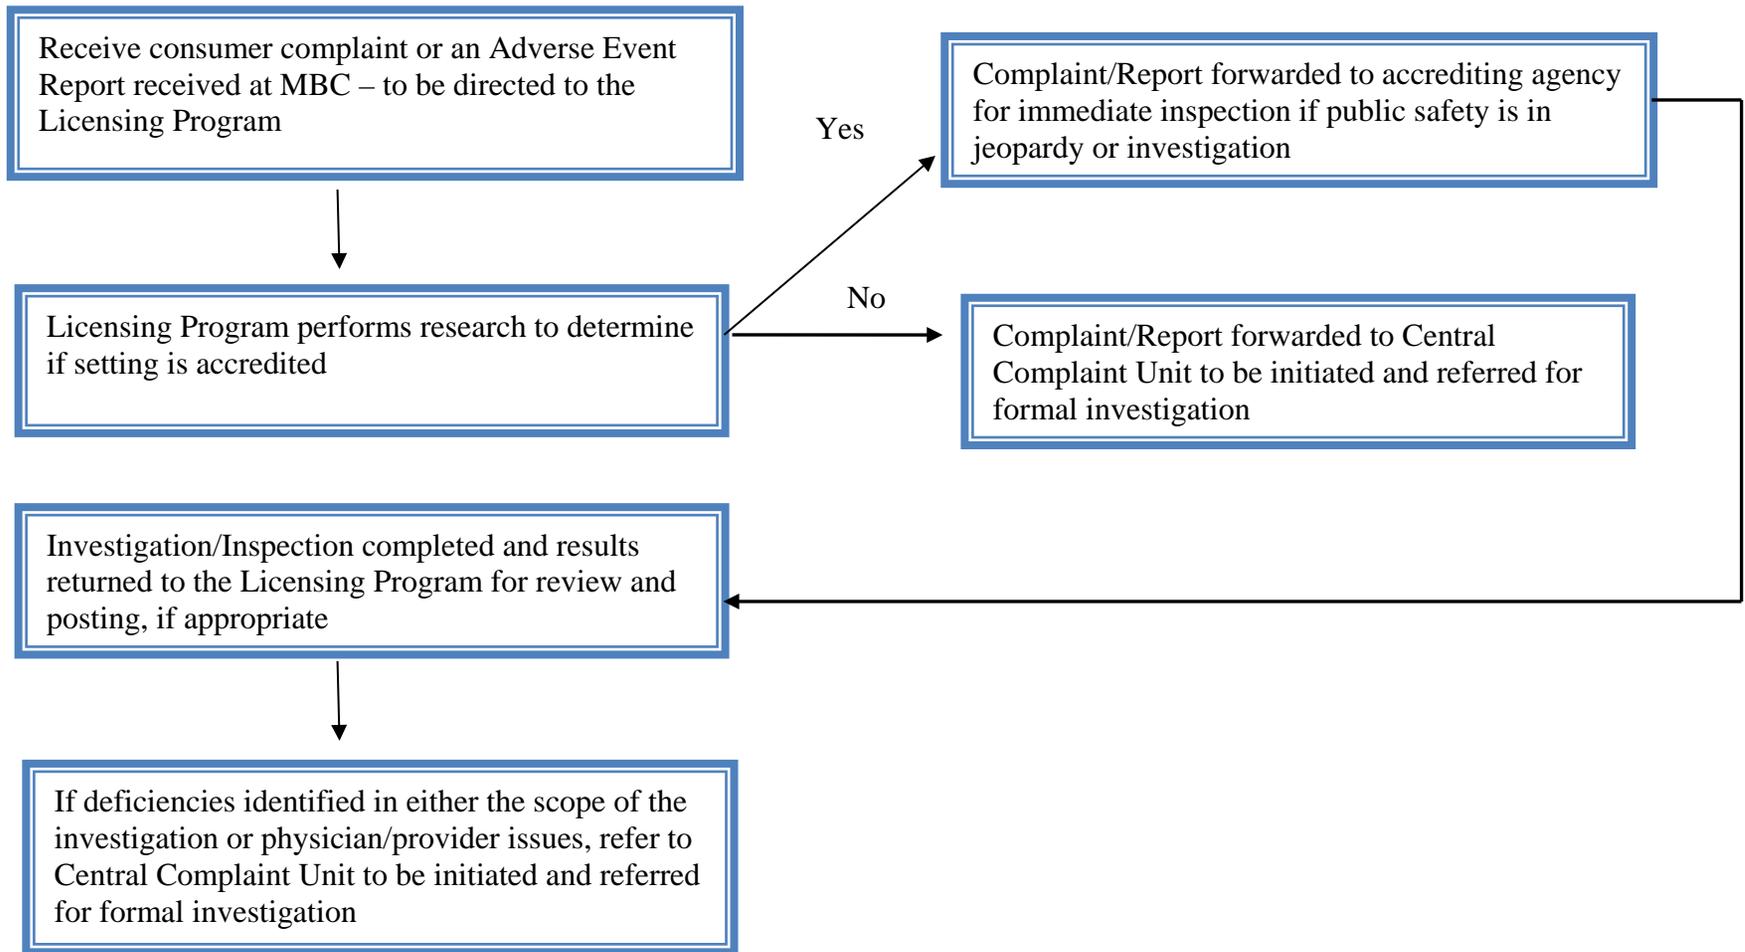

The bill requires MBC to maintain and publish a list of all accredited outpatient settings and provide information regarding the status of their accreditation. This portion of the statutory requirements is assigned to the Licensing Program and the status of implementation was reported directly to the Licensing Committee.

SB 100 also required the Medical Board to investigate complaints related to a violation of Health and Safety Code Section 1248 and, upon discovery that an outpatient setting is not in compliance with a specific provision, bring an action through or in conjunction with a district attorney to enjoin the outpatient setting’s operation. In addition, SB 100 made outpatient settings subject to the adverse event reporting requirements currently required for licensing health facilities. Adverse events are reported to the Department of Public Health and the setting can be subject to penalties by Public Health for failing to report adverse events.

The following identifies the responsibilities assigned in statute to pertinent entities as it relates to oversight and response to patient care concerns:
