

MEDICAL BOARD OF CALIFORNIA
Executive Office

LICENSING VERIFICATION SYSTEM SUBSCRIBERS

Re: STATEMENT REGARDING "PRIMARY SOURCE" DATA

In response to your request for a letter certifying the accuracy of information obtained from the Medical Board's Licensing Verification System (LVS), the following statement is provided:

The Medical Board of California contracts with the Administrators in Medicine (AIM) to provide the website and actual operation thereof. The website is the property of AIM and, while system security is ultimately AIM's responsibility, the Medical Board's agreement with AIM requires that the information provided will not be edited or altered in any way. The information that the Board provides to AIM is a true and accurate reflection of our license records which are derived from primary source documents. Accordingly, AIM's website reflects our primary source information. The Medical Board of California's Information Systems Branch updates this information twice a week and the information contained is current as of the date indicated on the site.

As always, your organization is responsible for any decision it may make based on our website information. However, it is our intent to provide accurate physician license information and to allow users the ability to verify licenses.

Sincerely,

Kimberly Kirchmeyer
Executive Director
