Sign Up for CURES at the Medical Board of California

May Board Meeting in Los Angeles!

Effective January 1, 2016, all California licensed physicians must be registered to access PDMP/CURES (as required by Section 209 of the California Business and Professions Code). Registering for CURES access allows the physician to access patient activity reports before prescribing controlled substances. The current registration process requires the physician to complete the online application and have the application notarized.

The Medical Board of California has volunteered to assist physicians in registering for access to CURES by reviewing the completed documents and verifying the physician's identity in place of the requirement to have the documents notarized. MBC is authorized to accept the applications and forward them directly to the Department of Justice for expedited processing.
