# GUIDELINES FOR PUBLIC COMMENT

The Medical Board of California (Board) is a public agency whose mission is to protect health care consumers through the proper licensing and regulation of physicians and surgeons and certain allied health care professionals and through the vigorous, objective enforcement of the Medical Practice Act, and to promote access to quality medical care through the Board's licensing and regulatory functions.

The Board welcomes your comments, concerns, and information you wish to share.

Please note that the Board must comply with the Open Meeting Act, the Administrative Procedure Act, and other sections of law when taking public comments. The Board's staff is here to help you with this process, so please feel free to seek additional assistance and clarification if you need it.

Please keep the following points in mind:

- Please be aware that the Board imposes time frames for public comment. Public comment is limited to three minutes per person; however, that time frame may be subject to change depending upon the number of speakers on a topic. Public comment, with the exception of comments received under "Public Comment on Items Not on the Agenda," must stay on topic with the specific agenda item being discussed, or the president or chair may have to rule the comments out of order.
- Only during the agenda item "Public Comment on Items Not on the Agenda" can the public make comments regarding any other items not listed on the Board's agenda. Please be aware that public comment during this agenda item should provide information to the Board Members and is not a discussion between the Board Members and the public. The only action Board Members can take is to listen to the comments and decide whether they want a future agenda item on the topic. No other action can be taken on the item at this meeting. Though this may seem at times like the Board Members are not being responsive, following these guidelines is critical to ensure the rules of the Open Meeting Act are followed to avoid compromising the speaker's goals or the Board's mission.
- When making comments, please do not discuss pending complaints, pending applications, or pending disciplinary actions that may come before the Board for a decision. Such discussions are considered 'ex parte' communications, and could provide information to the Members that is outside of the record, in violation of the Administrative Procedure Act. Therefore, such discussions could create a conflict and lead to a Board decision being challenged in superior court.
- The Board can receive comments regarding the Board's processes in general. It cannot receive comments on specific case circumstances where the decision is still pending. Board staff is available to speak with you about any pending matter.
- The Board requests that public comments be addressed to the Board as a whole and not to individual Members.

The Board appreciates the public's attendance and the input received from the public on the issues discussed at Board meetings.
