Expert reviewer training was held on September 22, 2018, at the Los Angeles County - University of Southern California's Medical Center and another training is scheduled on October 6, 2018, at the Medical Board of California's headquarter office in Sacramento, California.

Central Complaint Unit:

The average number of days to initiate a complaint in the Central Complaint Unit (CCU) is 13 days for the first quarter of FY 2018-2019. During the months of August and September, the Chief of Enforcement and CCU managers developed a new case initiation process that will assist the CCU in meeting the 10-day mandated timeframe to notify a complainant of the initial action

taken on a compliant. The new process was implemented on October 1, 2018, and as of the date of this enforcement report, the average number of days to initiate a complaint is eight days.

The average days to complete a complaint in the CCU is 138 days. The increase to the average processing time is due to staff vacancies. Currently, CCU has two vacant associate governmental program analyst (AGPA) positions and two vacant staff service analyst (SSA) positions. An interview for one SSA position was held and management is finalizing the hiring process. All other vacant positions were advertised and interviews are expected to take place in October.

The two staff services manager I (SSMI) vacancies mentioned in the previous enforcement summary have been filled. The managers started in CCU on August 20, 2018.

Discipline Coordination Unit:

The full-time office technician that was out on extended leave in the Discipline Coordination Unit (DCU) returned to work in September. DCU currently has one vacant SSA position as the incumbent employee was promoted within the Board. This vacancy is expected to be advertised by mid-October, and interviews held in November.

Complaint Investigation Office:

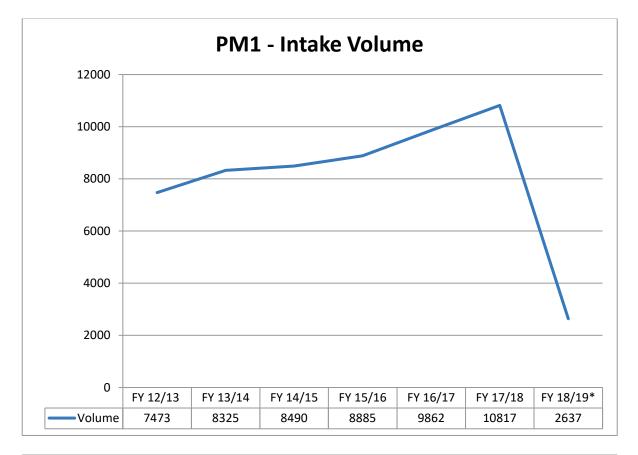

The Complaint Investigation Office (CIO) non-sworn special investigators currently have a case load of approximately 215 cases. Since the last enforcement summary, CIO has closed 95 cases and has transmitted 25 cases to the Attorney General's Office (AGO) – 5 malpractice cases, 17 criminal conviction cases, and 3 petitions for reinstatement of licensure. In addition, CIO referred one case to DCU for a public letter of reprimand. The average number of days for CIO to complete an investigation is 306 days.

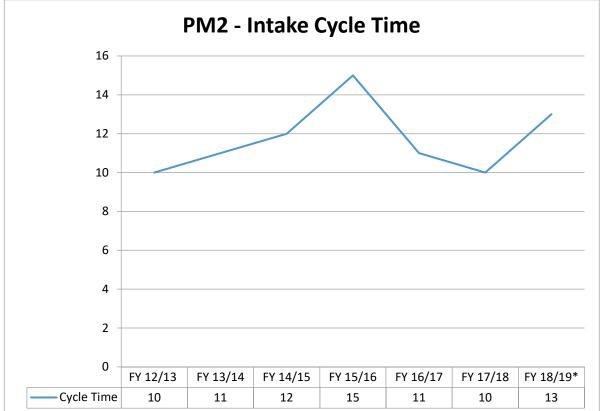

Probation Unit:

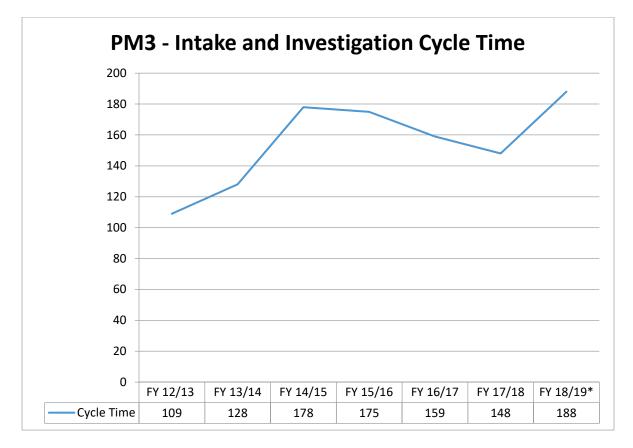

The Probation Unit currently has one vacant inspector I position in the Sacramento field office. This vacancy was advertised; however, there were no eligible candidates so the position is being re-advertised. The Probation Unit also has one vacant SSMI position as the employee retired from state service on September 30, 2018.

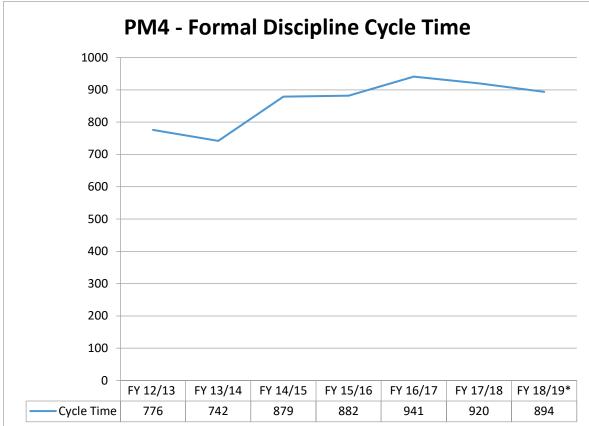

Enforcement Performance Measures:

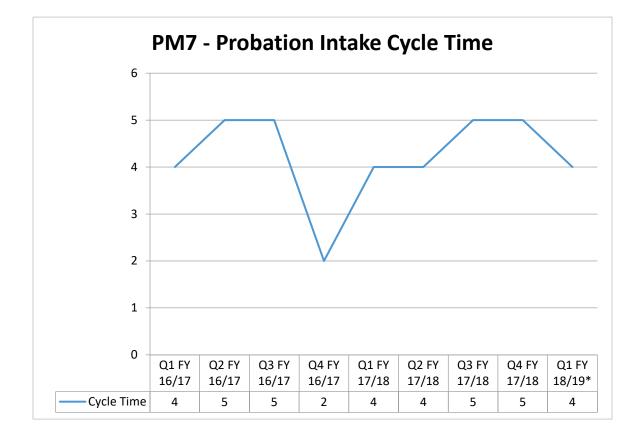

The charts below depict workload statistics regarding the number of complaints received, which includes complaints and arrest notifications (PM1), the average number of days to initiate a complaint and assign it to an analyst (PM2), the average number of days it takes to complete a case that has not been transmitted to the AGO for disciplinary action (PM3), and the average number of days it takes to complete a case that has been transmitted to the AGO for disciplinary action (PM4). PM7 captures the average number of days from when a probation inspector is assigned a case to when the inspector makes the initial telephone call to the probationer to set up the face-to-face intake interview. PM8 captures the average number of days from when a probation inspector confirms/supports with evidence that a violation of a term and condition of probation may have occurred to when management has provided approval for appropriate action to be taken for the violation of probation. Reports capturing PM7 and PM8 statistics were implemented in July 2016, and reflect fiscal years 16/17, 17/18 from July 1, 2018 to September 30, 2018.

This timeframe includes the Attorney General and Board review time after the investigation is completed by HQIU, which is an average of 4 days through September 2018. Includes physician and surgeon data only.

* This decrease is due to the Board initiating, in July 2014, a complaint investigation office of non-sworn special investigators who began investigating cases that would have been sent to HQIU.
