# Memorandum

Date: July 12, 2010  
To: Members, Division of Licensing  
From: Reginald Low, M.D.  
Subject: Status Update of International Medical School Recognition

---

International Medical Schools are subject to review pursuant to Title 16, Section 1314.1 (a)(2), of the California Code of Regulations (CCR).

Attached for your review is the list of the six International Medical Schools that have submitted applications for recognition by the Board. This list provides both the timelines and the current status of the application.

Currently, we have four medical consultants reviewing applications. One consultant serves as the trainer for the new consultants, one is an experienced consultant; and two are still fairly new to our review process. The Board is still seeking to expand its staff of part-time Medical Consultants and is looking for two to four additional consultants to review the new applications that are arriving. We are working closely with the Department of Consumer Affairs, Examination Unit on putting together the examination for medical consultants. We are expecting the examination to given in late fall of 2010.

Today, we have two schools on our agenda for review.

## **REVIEW OF SECTION 1314.1 (a)(2) SCHOOL APPLICATIONS - STATUS UPDATE**
