California law prohibits any person from practicing medicine in this state without a valid certificate of licensure.

Corporations and other artificial legal entities shall have no professional rights, privileges, or powers under the Medical Practice Act.

BPC section 2400
Acts that require a medical license:

Under BPC section 2052, any person who practices or attempts to practice any system or mode of treating the sick or afflicted in this state, or who diagnoses, treats, operates for, or prescribes for any ailment, blemish, deformity, disease, disfigurement, disorder, injury, or other physical or mental condition of any person must have a valid, unrevoked, or unsuspended certificate.
What Is the Corporate Practice of Medicine?

- A corporation or other entity practices medicine when it engages in any of the acts noted in BPC section 2052.
Why Ban The Corporate Practice of Medicine?

Why Ban The Corporate Practice of Medicine?

In other words, the ban protects consumers so that those who make decisions which affect the provision of medical services:

3) are subject to the enforcement powers of the Medical Board.
For Example

A physician, NOT an entity, must:

- Determine what diagnostic tests are appropriate for a particular condition;
- Determine the need for referrals to, or consultation with another physician or specialist;
- Be responsible for the ultimate overall care of the patient, including treatment options available to patient; and
- Determine how many patients he or she sees in a given time period, and how many hours to work.
