MINIMUM REQUIREMENTS

The Registered Polysomnographic Program registers individuals as polysomnographic trainees, technicians or technologists.

Registered Polysomnographic Trainee: The registration is required for individuals under the direct supervision of a supervising physician and surgeon, polysomnographic technologist or other licensed health care professional who may provide basic supportive services as part of their educational program, including but not limited to gathering and verifying patient information, testing preparation and monitoring, documenting routine observations, data acquisition and scoring, and assisting with appropriate interventions for patient safety in California.

Registered Polysomnographic Technician: The registration is required for individuals who may perform the services of a polysomnographic trainee under general supervision and may implement appropriate interventions necessary for patient safety in California.

Registered Polysomnographic Technologist: The registration is required for individuals who are responsible for the treatment, management, diagnostic testing, control, education, and care of patients with sleep and wake disorders in California.

- ➤ The Medical Board of California (Board) accepts the following approved polysomnographic education programs:
 - 1) A polysomnographic education program accredited either by the Commission on Accreditation of Allied Health Education Programs ("CAAHEP") or by the Commission on Accreditation for Respiratory Care;
 - 2) A sleep technologist program accredited by the American Academy of Sleep Medicine; or
 - 3) A sleep technologist program approved by the Board of Registered Polysomnographic Technologists.
- ➤ The Registered Polysomnographic Technologist Certification Exam (RPSGT) offered by the Board of Registered Polysomnographic Technologists is the only exam approved by the Board for purposes of qualifying a polysomnographic technologist for registration.
- > Physicians and surgeons who supervise registrants must hold a valid California license and either:
 - 1) Possess a current certification or subspecialty certification or is eligible for such a certification in sleep medicine by a member board of the American Board of Medical Specialties (AMBS) or the American Board of Sleep Medicine (ABSM); or
 - 2) Hold active staff membership at a sleep center or laboratory accredited by the American Academy of Sleep Medicine or by the Joint Commission.

The supervising physician cannot supervise more than eight (8) polysomnographic technologists at any one time. Moreover, the supervising physician cannot supervise more than a total of eight (8) polysomnographic technicians and/or trainees at any one time. If a supervising physician is not physically present on the premises, a supervising polysomnographic technologist or other licensed healthcare professional (registered nurse, physician assistant or respiratory care practitioner who possesses a current California license) must be physically present on the premises and available to the polysomnographic technician and/or trainee.

A supervising polysomnographic technologist and his or her supervising physician must establish written guidelines for the adequate supervision by the technologist of the polysomnographic technicians and trainees. This requirement may be satisfied by the supervising physician adopting protocols for some or all of the tasks performed by the technicians and trainees. The protocols must be signed and dated by the supervising physician and the polysomnographic technologist. The delegation of procedures to a registrant or other licensed health care professional does not relieve the supervising physician of primary continued responsibility for the welfare of the patient.

California's Department of Justice (DOJ) provides statewide Live Scan, which is an electronic fingerprinting system with a subsequent automated background check and response. This system significantly expedites the fingerprint clearance process. APPLICANTS WHO RESIDE IN CALIFORNIA MUST COMPLETE THE ELECTRONIC LIVE SCAN FINGERPRINT PROCESS. Applicants residing outside of California may choose this option if visiting the state.

CALIFORNIA DOES NOT HAVE LIVE SCAN LINKS TO ANY OTHER STATES

The "Request For Live Scan Service" form (below) is required to have your fingerprints processed by Live Scan. This form must be completed in triplicate; therefore, THREE copies will be printed automatically when printing the form. Please ensure that all personal data (name, AKA's, date of birth, sex, height, weight, eye color, hair color, place of birth, Social Security Number or Individual Taxpayer Identification Number, California driver's license number and home address) is provided on *each of the three forms*. The last section of the form requires information from the fingerprint agency; please ensure this information is completed or the forms will be void. It is the responsibility of the applicant to ensure that the person scanning the fingerprints submits TWO digital prints, one for the DOJ and one for the FBI.

Applicants can access the website, https://oag.ca.gov/fingerprints/locations to obtain the names and location of approved fingerprint sites. Information pertaining to the need for appointments, hours of availability, and rolling fees are also available through that website. After completing the Live Scan process, applicants must submit ONE of the THREE forms with the Application for a Research Psychoanalyst or Student Research Psychoanalyst Registration to document the scanning of their fingerprints. The results of Live Scan fingerprints are generally received within five (5) days.

Applicants residing outside of California must submit two completed fingerprint cards or have your fingerprints completed at a California Live Scan facility. The results of paper fingerprint cards are generally received within six (6) weeks.

Whether you use Live Scan or paper fingerprint cards, you will be charged an administrative fee by the local agency that scans the prints or provides the inked impressions. This is in addition to the fingerprint processing fee that must be paid to the Medical Board of California with your application. For further information about the fingerprint clearance process and time frames, please visit the following website at:

https://oag.ca.gov/contact/faqs

Because applicants from the medical professions must be concerned with sanitary issues, they wash and scrub their hands so much that images of their fingerprints are often difficult to read. When the impressions are of such poor quality that they cannot be searched in DOJ's fingerprint data base, the fingerprints (whether Live Scan or paper card) are rejected and reprints will be necessary. Therefore, please advise the person processing your fingerprints that extra care needs to be given to ensure that clear impressions have been made.

Criminal Records Check from both the California Department of Justice and the Federal Bureau of Investigation must be received prior to the issuance of a Polysomnographic Registration in California.

NOTE: If you have ever been convicted of a misdemeanor or felony, the record of conviction will be reported to the Board as a result of your fingerprint inquiry.

Privacy Act Statement

Authority. The FBI's acquisition, preservation, and exchange of fingerprints and associated information is generally authorized under 28 U.S.C. 534. Depending on the nature of your application, supplemental authorities include Federal statutes, State statutes pursuant to Pub. L. 92-544, Presidential Executive Orders, and federal regulations. Providing your fingerprints and associated information is voluntary; however, failure to do so may affect completion or approval of your application.

Principal Purpose. Certain determinations, such as employment, licensing, and security clearances, may be predicated on fingerprint-based background checks. Your fingerprints and associated information/biometrics may be provided to the employing, investigating, or otherwise responsible agency, and/or the FBI for the purpose of comparing your fingerprints to other fingerprints in the FBI's Next Generation Identification (NGI) system or its successor systems (including civil, criminal, and latent fingerprint repositories) or other available records of the employing, investigating, or otherwise responsible agency. The FBI may retain your fingerprints and associated information/biometrics in NGI after the completion of this application and, while retained, your fingerprints may continue to be compared against other fingerprints submitted to or retained by NGI.

Routine Uses. During the processing of this application and for as long thereafter as your fingerprints and associated information/biometrics are retained in NGI, your information may be disclosed pursuant to your consent, and may be disclosed without your consent as permitted by the Privacy Act of 1974 and all applicable Routine Uses as may be published at any time in the Federal Register, including the Routine Uses for the NGI system and the FBI's Blanket Routine Uses. Routine uses include, but are not limited to, disclosures to: employing, governmental, or authorized nongovernmental agencies responsible for employment, contracting, licensing, security clearances, and other suitability determinations; local, state, tribal, or federal law enforcement agencies; criminal justice agencies; and agencies responsible for national security or public safety.

Noncriminal Justice Applicant's Privacy Rights

As an applicant who is the subject of a national fingerprint-based criminal history record check for a noncriminal justice purpose (such as an application for employment or a license, an immigration or naturalization matter, security clearance, or adoption), you have certain rights which are discussed below.

- You must be provided written notification₁ that your fingerprints will be used to check the criminal history records of the FBI.
- You must be provided, and acknowledge receipt of, an adequate Privacy Act Statement when you submit your fingerprints and associated personal information. This Privacy Act Statement should explain the authority for collecting your information and how your information will be used, retained, and shared.
- If you have a criminal history record, the officials making a determination of your suitability for the employment, license, or other benefit must provide you the opportunity to complete or challenge the accuracy of the information in the record.
- The officials must advise you that the procedures for obtaining a change, correction, or update of your criminal history record are set forth at Title 28, Code of Federal Regulations (CFR), Section 16.34.
- If you have a criminal history record, you should be afforded a reasonable amount of time to correct or complete the record (or decline to do so) before the officials deny you the employment, license, or other benefit based on information in the criminal history record. 3

You have the right to expect that officials receiving the results of the criminal history record check will use it only for authorized purposes and will not retain or disseminate it in violation of federal statute, regulation or executive order, or rule, procedure or standard established by the National Crime Prevention and Privacy Compact Council. 4

If agency policy permits, the officials may provide you with a copy of your FBI criminal history record for review and possible challenge. If agency policy does not permit it to provide you a copy of the record, you may obtain a copy of the record by submitting fingerprints and a fee to the FBI. Information regarding this process may be obtained at history-summary-checks.

If you decide to challenge the accuracy or completeness of your FBI criminal history record, you should send your challenge to the agency that contributed the questioned information to the FBI. Alternatively, you may send your challenge directly to the FBI. The FBI will then forward your challenge to the agency that contributed the questioned information and request the agency to verify or correct the challenged entry. Upon receipt of an official communication from that agency, the FBI will make any necessary changes/corrections to your record in accordance with the information supplied by that agency. (See 28 CFR 16.30 through 16.34.) *You can find additional information on the FBI website at* https://www.fbi.gov/about-us/cjis/background-checks.
