

# ACTION REPORT

## BOARD OF MEDICAL QUALITY ASSURANCE

### A Report on Board Activities Prepared as an Information Service for Licensees and Health Facilities

This is the first "ACTION REPORT" of the new Board of Medical Quality Assurance.

The 17 physician and public member Board still lacks 2 members to reach its full complement of 19 members. Seven new members were appointed in March, one in April and three in June.

The entire Board and staff, as well as each Division, has been working diligently and meeting frequently over the past several months on reorganization plans, staffing, and setting programs on continuing education (Division of Licensing), the certifying of currently non-certified professionals (Division of Allied Health), and on disciplinary procedures (Division of Medical Quality).

Another matter to which the Board has been directing its attention has been the question of handling the impaired physician, particularly the physician with problems of alcoholism, with an emphasis on the rehabilitative approach. The Board has also been busy implementing the new acupuncture legislation. Recently the Board held an all day meeting on "consumerism" in an attempt to more clearly define the expectations of the public with respect to the role of the Board of Medical Quality Assurance.

The membership of the Board of Medical Quality Assurance, both old and new, is working together harmoniously and in close cooperation with the Department of Consumer Affairs and other governmental and professional organizations. There is a sense of movement and accomplishment within the Board which increases with each passing meeting.

Action Reports will be published approximately every six weeks and will contain, in addition to disciplinary information, articles of interest to licensees including reports on the Board's progress in fulfilling the mandates of recent legislation.
