# EDITOR'S SPOTLIGHT

*Emmalee Ross  
Designer & Editor in Chief*

If you've been missing our "You Asked for It" column, it's making an appearance in this edition of the Medical Board of California News. Lately, we've received numerous emails from licensees regarding their plastic wallet cards, updates on license and application statuses, and mandatory fees. Public Information Analyst Alexandria Schembra answers these questions and more on **page 14**.

In this edition's Consumer Corner, we're breaking down the first five steps to take when filing a complaint. I share a few tips and best practices on **page 10** when completing a complaint form to ensure your complaint is processed as quickly and efficiently as possible.

We also have an important guest article from our partners at the Civil Rights Department, sharing advice with doctors when writing a workplace reasonable accommodation letter, and the value of getting it right. They'll be hosting a webinar on December 8, 2022, diving deeper into the topic and answering your questions. We hope physicians find this helpful. Register for the webinar and find more information on **page 7**.

Newsletter submissions are welcome, but all submissions become property of the Board and are subject to editing.

### **The Board's Mission**

The mission of the Medical Board of California is to protect healthcare consumers through the proper licensing and regulation of physicians and surgeons and certain allied healthcare professionals; and through the vigorous, objective enforcement of the Medical Practice Act, and to promote access to quality medical care through the Board's licensing and regulatory functions.

# PRESIDENT'S MESSAGE

*Third Quarter 2022*

As Thanksgiving approaches, the Medical Board of California extends its thanks and gratitude to all who assist us in achieving our mission to protect California's healthcare consumers through our Licensing and Enforcement programs.

Our Board members and our Board staff work tirelessly with stakeholders across state agencies, academic institutions, and the private sector to help promote access to quality health care for all Californians.

This month, we are pleased to present the Board's ***Fiscal Year 2021-2022 Annual Report***. Within the pages of the annual report, you will find details about the Board's Licensing Program and Enforcement Program achievements. I hope you will take the opportunity to review the Board's highlights and statistics – they offer a detailed window into the work of the Board.

As Board President, I am committed to improving consumers' experience with the Board. During my term as president, I have had the opportunity to connect with many stakeholders in person, via phone, and through social media, and I look forward to continuing that important outreach.

In the coming months, the Board looks forward to completing a new Strategic Plan that will give us a roadmap for the next four years to strengthen our overall goal of consumer protection and help us communicate that mission with stakeholders.

In closing, as we near 2023, the Board is looking forward to working with the State Legislature on the Board's Sunset Review process. The Board has identified several statutory changes that if enacted through Sunset Review, would dramatically strengthen the Board – including an increase to licensing fees, and adding new staff to help communicate with complainants and the public, among others.

We hope that you, too, will join us in this process and provide valuable feedback that can be used to help improve the Board in the coming years.

*Kristina D. Lawson*

# IMPORTANT REMINDERS FOR POSTGRADUATE TRAINING LICENSE APPLICANTS, PHYSICIAN'S & SURGEON'S LICENSE APPLICANTS

*By MBC Licensing Program &  
Emmalee Ross  
Public Information Officer*

**W**hen applying for a postgraduate training license (PTL) or transitioning to a Physician's and Surgeon's (P&S) license, the Board's Licensing Program wants to remind applicants of some important steps to take to help ensure your application is efficiently processed.

## POSTGRADUATE TRAINING LICENSURE

Medical school graduates who enroll in a California ACGME-accredited postgraduate training (PGT) program are required to obtain a PTL within 180 days of their enrollment. While you have 180 days to obtain a PTL from your PGT program enrollment date, the Board encourages you to apply as soon as you are enrolled in your PGT program, so Board staff have enough time to review your application and supporting documents.

Individuals issued a PTL on or after January 1, 2022, will be issued a PTL for up to 15 months (for U.S. and Canadian medical school graduates) or 27 months (for international medical school graduates). However, the law authorizes the Board to extend a PTL beyond 15 or 27 months if you remained enrolled in your PGT program and need additional training to qualify for a P&S license.

If the resident is placed on probation or remediation, takes a leave of absence, or has any other program change that would affect their anticipated date to meet the requirements to obtain a P&S license, a Program Status Update/Change Form (Form PSU) is required from the program director within 30 days.

For example, if a resident was issued a PTL for 15 months and took an extended leave of absence during their first year of training and had to make up this time, the Board could extend the PTL allowing the resident to obtain the required training credits needed to qualify for licensure.

## PHYSICIAN'S AND SURGEON'S LICENSURE

PTL holders should apply to transition to a P&S license six months prior to the expiration date of their PTL. This will ensure sufficient time for the Board to review your application and for all supporting documents to be received prior to the expiration of the PTL.

Although the application may be submitted early, the P&S license will not be issued until you meet all licensure requirements.

Prior to issuing a P&S license, you must have taken and passed Step 3 of the United States Medical Licensing Examination (USMLE) or Part 1 of the Licentiate of the Medical Council of Canada (LMCC) examination AND Step 3 of the USMLE per ***Title 16 of the California Code of Regulations (CCR) section 1328.***

If you've obtained a passing score on all parts of Step 3 of the USMLE in more than four attempts, you must meet the requirements of Business and Professions Code (BPC) section ***2135*** or ***2135.5*** to be considered eligible for issuance of a P&S license (***BPC section 2177(c)(2)***).

Please note, the P&S license must be obtained by the time your PTL expires, otherwise all clinical activities in California must cease until a P&S License is obtained – as practice is not permitted with an expired license.

It is the applicant's responsibility to submit their application and all required documents timely to the Board, including documents that must be provided directly from a third party, such as a medical school.

# WHAT EVERY DOCTOR NEEDS TO KNOW

## WRITING REASONABLE ACCOMMODATION LETTERS

*By Rashida  
Harmon, Rachael  
Langston,  
Zachary Florent,  
Linda Li, and  
Sharon Terman\**

**Authors' Note:** The following hypothetical scenario illustrates the importance of drafting effective, accurate, and legally sound workplace accommodation letters for your patients.

Lisa is an administrative worker at a small literary magazine. Last year, she began struggling with anxiety. At first it was manageable, but as time went on, she found herself withdrawing from social events and activities that used to bring her joy. Soon, she was having panic attacks every day and avoiding leaving the house. Her partner encouraged her to seek professional help, prompting Lisa to enroll in an intensive outpatient psychotherapy program.

Lisa couldn't afford to miss work, but fortunately her job was 100 percent remote with a flexible schedule. She requested a reasonable accommodation from her employer, asking to block off two hours each day to attend therapy. She offered to work late every day to make up the hours. Her employer asked her to submit a doctor's note to support her request, so Lisa reached out to her medical provider. Her doctor provided the following accommodation letter:

To Whom It May Concern:

I am Lisa Lastname's treating physician. Due to a severe anxiety and panic disorder, Ms. Lastname is incapacitated for the foreseeable future and cannot perform the duties of her job while she obtains treatment.

Thanks,

Frank Physician, M.D.

After Lisa submitted the note, her employer notified her that she was being placed on unpaid medical leave effective immediately until she was medically cleared to return. Confused, upset, and unable to earn money, she spent several days calling and emailing her doctor and Human Resources with no solution in sight. The stress of the experience culminated in the worst panic attack of her life. Eventually, she learned the doctor’s note contained several errors. It took her doctor a week to issue a new note, during which she was unable to work.

## WHAT WENT WRONG?

Misunderstandings about how to draft an effective accommodation letter can hinder patients’ ability to obtain an appropriate accommodation from an employer and may have other negative consequences. Lisa’s doctor could have optimized his letter by:

1. Protecting her diagnosis. California’s privacy laws generally prevent doctors from sharing intimate details about a patient’s medical condition, and the Fair Employment and Housing Act does not require an employee to disclose the nature of their disability when seeking a reasonable accommodation. ([Cal. Const. art. 1., § 1](#); [Cal. Civ. Code § 56.10 – 56.16](#); [Cal. Code Regs. tit. 2, § 11069\(d\) \(1\)](#)). Rather than identifying Lisa’s anxiety and panic disorder by name, best practice would have been to state more broadly that Lisa has a “disability” that substantially limits major life activities and for which she is seeking a reasonable accommodation.
2. Accurately describing the reasonable accommodation. Lisa needed a temporary schedule modification that would have allowed her two hours each day to attend therapy – not a leave of absence. The employer, understandably, interpreted the broad language in the doctor’s letter to mean that Lisa could not work at all while she “obtained treatment” of an unspecified duration. Your patient, like Lisa, may have an idea of what type of accommodation they need. Collaborate with them to devise a medically appropriate solution and ensure the letter reflects the requested accommodation/work limitation with specificity.
3. Avoiding unnecessarily restrictive language. Stating that your patient cannot perform

the duties of their job can have serious consequences – and can even lead to their termination. Instead, after medically assessing the patient’s condition and needs, you may determine that your patient can perform an essential task with an accommodation, which you can then specify. For instance, in this case, Lisa could continue to perform her job with the accommodation of a temporary schedule modification that would allow her to complete two hours of her work later in the day.

4. Being clear about timelines. Vague statements regarding how long an accommodation is needed (especially if the accommodation relates to schedule adjustments or leave from work) can be difficult for employees and employers to navigate when arranging accommodations. For example, the doctor said Lisa was incapacitated “for the foreseeable future.” A better approach is to note the date the accommodation became medically advisable (start date), as well as a projected end date. As the projected end date approaches, the patient can seek an extension as appropriate.

Stable employment is a social determinant of health. Doctors can support their patients’ personal and professional wellbeing in the reasonable accommodation process by listening closely to their needs and limitations and collaborating with them to create an accurate, specific, and effective letter.

## SAVE THE DATE

# WE NEED YOUR SPECIALTY! BECOME AN MBC MEDICAL CONSULTANT

The Medical Board of California's (Board) Central Complaint Unit is accepting applications for the Medical Consultant Program.

Medical Consultants review complaints to determine whether a formal investigation by Board investigative staff is needed, or if the complaint can be resolved by a preliminary review of the medical records and a physician narrative statement.

Participating physicians are reimbursed \$75 per hour for record review and report preparation.

If you are interested, please contact **Therese Kelly** at (916) 263-2434 or **Hugo Estrada** (916) 263-2463. The application and eligibility requirements are available on our [website](#).

While all specialties are welcome to apply, the Board is in need of physicians with the specialties below:

- Cardiac Surgery
- Colon and Rectal Surgery
- Dermatology
- Gynecology
- Interventional Cardiology
- Interventional Radiology
- Neonatal/Perinatal
- Neurological Surgery
- Otolaryngology
- Pain Medicine
- Physical Medicine and Rehabilitation
- Plastic Surgery
- Radiation Oncology
- Thoracic Surgery
- Vascular Surgery

# CONSUMER CORNER: HOW TO FILE A COMPLAINT WITH THE MEDICAL BOARD

By *Emmalee Ross, Public Information Officer & Carlos Villatoro, Public Information Manager*

Anyone who's ever had a problem with the care and treatment received from their doctor will want to lean in.

The sooner you file the complaint, the better, as the statute of limitations prevents the Medical Board of California (Board) from reviewing matters that happened more than seven years ago – except in special circumstances.

Filing a complaint can feel overwhelming; below are best practices and steps to follow to make the process more efficient.

## STEP 1: FILE A COMPLAINT WITH THE RIGHT LICENSING BOARD

The Board investigates complaints involving medical doctors, licensed midwives, polysomnographic trainees, technicians, and technologists, and research psychoanalysts.

The Board has no jurisdiction, however, over nurses, physician assistants, osteopathic medical doctors, chiropractors, optometrists, hospitals, insurance companies, or any other healthcare professional or entity.

The *Department of Consumer Affairs* provides a list of the various healthcare licensing boards that can help you determine with which organization to file your complaint.

## STEP 2: VERIFY YOUR COMPLAINT FALLS WITHIN THE BOARD'S JURISDICTION

The Board investigates complaints including, quality of care (misdiagnosis, treatment/medication causing side effects, surgical complications, negligent care, etc.); office practice (failure to sign death certificate, failure to provide records, misleading advertising); inappropriate prescribing; provider impairment (under the influence of drugs or alcohol, mental

or physical impairment); sexual misconduct; and unlicensed activity (aiding and abetting unlicensed practice, unlicensed provider).

Please note: The Board does not have jurisdiction over billing fees and disputes, general business practices, or personal conflicts, unless the behavior in questions interferes with the safe delivery of health care.

## STEP 3: HOW TO FILE YOUR COMPLAINT

A complaint can be **completed by hand** and mailed or faxed (916-263-2435), or emailed to [complaint@mbc.ca.gov](mailto:complaint@mbc.ca.gov). You can also submit a complaint **online** through the Board's BreEZe system. The Board provides a helpful five minute **tutorial video** for filing your complaint online.

A separate complaint form should be completed for each physician or healthcare provider you wish to file a complaint against.

The more complete and accurate your complaint form is, the quicker Board analysts and investigators will be able to process your complaint.

THE MORE COMPLETE AND ACCURATE YOUR COMPLAINT FORM IS, THE QUICKER BOARD ANALYSTS AND INVESTIGATORS WILL BE ABLE TO PROCESS YOUR COMPLAINT.

When completing a complaint form, please consider the following:

- The Board recommends typing your complaint, as handwriting can be difficult to read and may require additional follow up.
- Fill out all questions to the best of your ability, including names and dates of birth. Contact information is especially important such as your phone number and email address when available.
- Write a chronological sequence of what happened. Stick to the facts and the reason for your complaint. Think through what was said and what happened, and if you have any witnesses (family member, nurses, or other healthcare providers) please make sure to include their information in the complaint.
- Let us know if you attempted to reach out to the specific provider or facility to discuss your concerns, and if so, what happened as result of the interaction.
- Attach copies of documents to support your complaint. This may include patient records, photographs, audio or video recordings, correspondence including email or text messages, billing statements, proof of payments, autopsy or toxicology reports, a police report, court documents, etc.
- Along with the support documents mentioned, we will need a signed release form (included in the Board's complaint application) for the Board to obtain your medical records – a crucial part of any given investigation. You may also need to sign a specific release form if the physician is not the custodian of your medical records. In addition, list all other subsequent treating facilities or relevant subsequent treating providers specific to your complaint.
- If the incident involves a surgical procedure, it is important that you list any pre-op or post-op providers. If you were treated at a Kaiser Permanente facility, you will also need to complete a special release form specific for that facility. You may find yourself having to submit all three depending on your circumstances.

- If the patient is deceased, the person signing the release forms must be a legal representative as demonstrated on a durable power of attorney, death certificate, or an executor of will/estate document.

### STEP 4: AFTER YOUR COMPLAINT IS FILED

After your complaint is filed and assigned to an analyst, you will receive confirmation of receipt from the Board within 10 days of filing.

The investigative process may include:

- Obtaining medical records or other information and evidence
- Locating and interviewing the complainant, witnesses, and "the physician"
- Obtaining expert review of the case
- Drafting and serving investigational subpoenas
- Inspecting the location where the allegations occurred
- Executing search warrants
- Conducting undercover operations

Details of the complaint review and investigation process are confidential and not subject to public disclosure, however, during the investigation, the physician will be notified of the complaint.

### STEP 5: FOLLOWING UP ON YOUR COMPLAINT

If you have additional information to share or questions on your complaint, you may contact the Board's Central Complaint Unit at 916-263-2528, or by email at [complaint@mbc.ca.gov](mailto:complaint@mbc.ca.gov).

Your assigned analyst may also reach out to obtain more information (such as signed release forms to obtain your medical records). If the Board is unable to obtain documentation, evidence, or medical records, the complaint may not be investigated until that information is available.

More information is available on our [Resources webpage](#), you can also contact us at [webmaster@mbc.ca.gov](mailto:webmaster@mbc.ca.gov) with any questions.

# MBC PUBLISHES ITS FISCAL YEAR 2021-2022 ANNUAL REPORT

By Emmalee Ross, Public Information Officer

The Medical Board of California (Board) recently published its [Fiscal Year 2021-2022 Annual Report](#) to the Board's website.

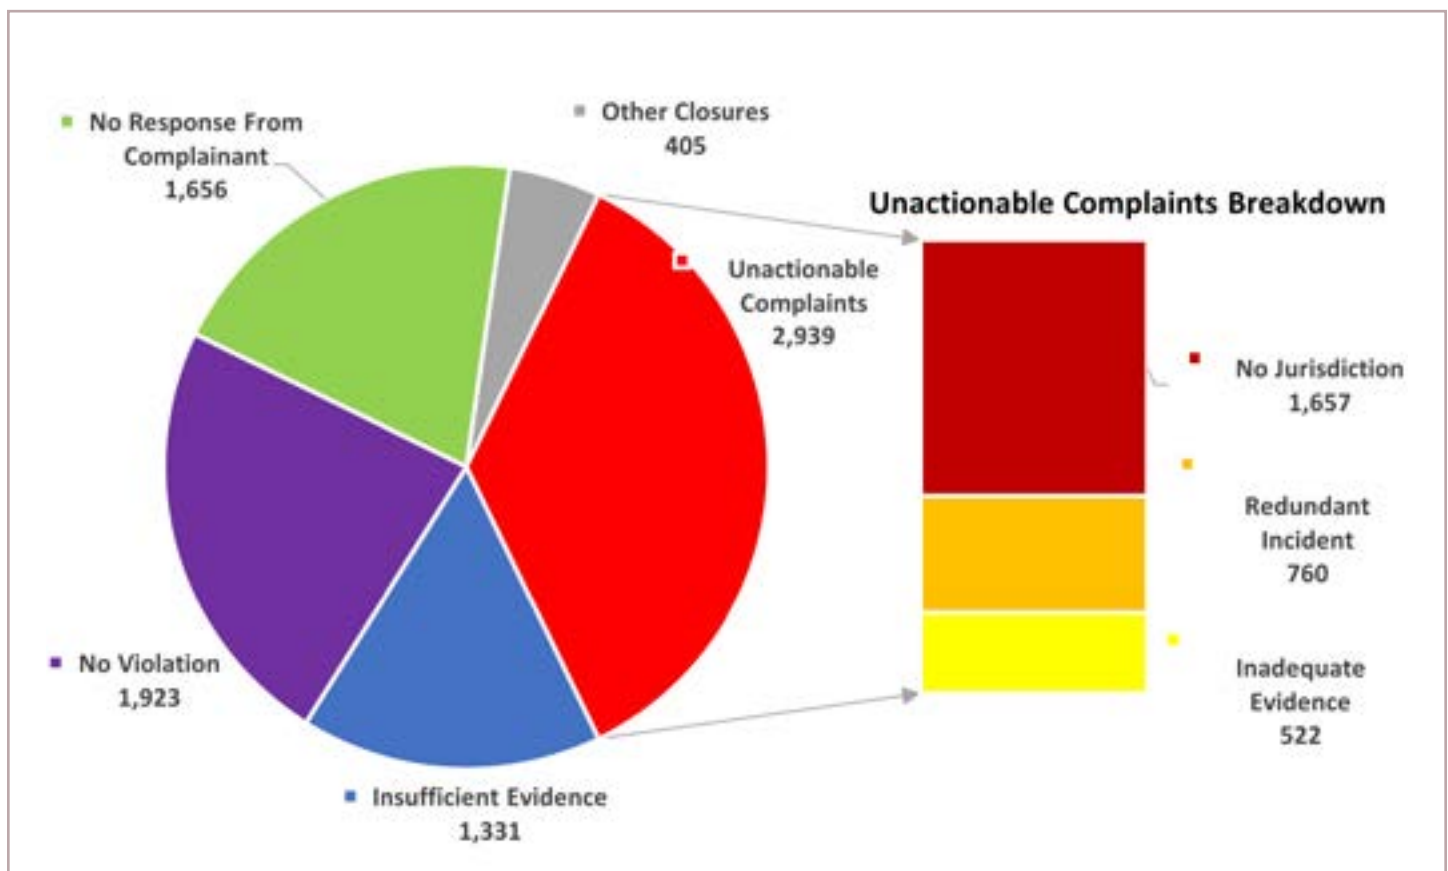

The annual report highlights important topics over the last fiscal year and breaks down data into comprehensive charts and graphs. Inside the annual report, you will find information on a myriad of topics including the Board's budget, the Licensing and Enforcement Programs, and information pertaining to physician's and surgeon's licenses and those of allied healthcare professionals.

As of last fiscal year, one of the newer additions highlighted in the annual report is the pie graph below detailing closed complaints.

Each year, the Board receives thousands of complaints against physicians and surgeons. Every complaint received is reviewed, however, many are closed in the Board's Central Complaint Unit (CCU) without referral or investigation. The graph is designed to help consumers and complainants better understand why complaints are closed.

Learn more about the chart below, and the details of closed complaints in last year's [Fiscal Year 2020-2021 Annual Report](#) on page 11 under the Enforcement Program.

You can find our most recently published annual report along with historical annual reports on the Board's [Resources webpage](#).

# MBC NEEDS YOU!

If you live in CA and have a full-time active practice in CA, apply to be an expert reviewer for the Board.

## HISTORY

The Medical Board of California (Board) established its Expert Reviewer Program in July 1994, as an impartial and professional means to support its investigation and enforcement functions. Expert Reviewers assist the Board by providing reviews and opinions on Board cases, and conducting medical and psychiatric evaluations.

## REQUIREMENTS

Actively practicing physicians from all other specialties not listed here are welcome to apply and participate in the program. Physicians must be board certified, have been practicing their specialty for a minimum of three years after board certification, have no current complaints, no prior discipline, and must be willing and available to testify in court.

## MIDWIVES

The Board also needs midwife expert reviewers throughout the state of California. Licensed midwives must have an active midwifery practice for the past two years, have no current complaints, no prior discipline, and must be willing and available to testify in court.

## CONTACT

For more information regarding compensation and how to apply, please visit our [website](#) or e-mail the Board's expert program at [MBCMedicalExpertProgram@mbc.ca.gov](mailto:MBCMedicalExpertProgram@mbc.ca.gov).

## The Board is looking the following specialties:

- Addiction Medicine with added certification in Family or Internal or Psychiatry
- Cardiology
- Clinical Genetics
- Colon/Rectal Surgery
- Dermatology
- Family Medicine
- Gastroenterology
- Hematology
- Interventional Cardiology
- Midwife Reviewer
- Neurological Surgery
- Neurology
- Obstetrics and Gynecology (with added expertise in Gynecologic Oncology)
- Orthopaedic Surgery
- Pathology (preferred: Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, and Ventura Counties)
- Pediatric Endocrinology
- Pain Medicine
- Pediatric Gastroenterology
- Pediatric Surgery
- Pediatric Cardiac Surgery
- Pediatric Critical Care
- Pediatric Pulmonology
- Plastic Surgery
- Psychiatry (Forensic and Addiction)
- Radiation Oncology
- Surgery (General and Endocrine Surgery)
- Thoracic and Cardiac Surgery
- Urology (General and Gender Reassignment)
- Vascular Surgery

# YOU ASKED FOR IT

## QUESTIONS RECEIVED FROM THE WEB

By Alexandria Schembra, Public Information Analyst

**Q:** I recently submitted all the required paperwork for my license application. It's been more than a month since I heard anything, and I don't know who to contact. How can I get an update on the license application?

**A:** Due to an exceptionally high volume of applications, at this time the Board is unable to confirm receipt of documents. Documents submitted through the BreEZe system or DOCS portal are immediately received by the Board. If you wish to confirm receipt of a mailed document, please mail the document using a mail tracking service. Please allow the Board at least 60 to 90 calendar days after we have received your application to conduct the initial review. Once your application is reviewed, you will be notified by email of any deficiencies.

After we do the first review of an application, please allow us 10 calendar days to review any additional documents you send in. All applications and supporting documents are reviewed in the date order received unless you qualify and are approved for an expedited review.

To check the status of your initial license application, regardless of whether the application was submitted by mail or through BreEZe, please log into your BreEZe account. Please refer to the Board's **BreEZe webpage** for more information on creating a BreEZe account and how to access the BreEZe system.

**Q:** I renewed my license but never received the little plastic wallet card. Does the Board still send those out?

**A:** The Board no longer mails plastic wallet licenses. Any licensee/registrant with a "Current" license status may generate a wallet license anytime through the **Wallet License Generator**. The wallet license includes a License Specific QR Code that allows interested parties to instantly view the DCA Search License Profile page with real-time license status information. It also generates an electronic PDF that can be sent to others. There is no fee for this service.

**Q: Why do I have to pay additional mandatory fees when I renew my license?**

California ***Business and Professions Code (BPC) section 2436.5*** requires licensees to pay a \$25 fee at the time of renewal of a Physician and Surgeon's License to the ***Steven M. Thompson Physician Corps Loan Repayment Program***. The Physician Loan Repayment Program encourages recently licensed physicians to practice in underserved locations in California by authorizing a plan of repayment of their medical school loans in exchange for their service in a designated medically underserved area for a minimum of three years.

Also, ***BPC section 208*** requires renewing licensees to pay an additional \$22 to support the Controlled Substance Utilization Review and Evaluation System (CURES).

CURES allows authorized users, including prescribers, pharmacists, and regulators to access a patient's controlled substances prescribing history. Access to this information helps healthcare professionals appropriately prescribe to their patients and avoid possible prescription drug abuse.

# MEDICAL BOARD CHAT PODCAST

## DID YOU KNOW?

The Medical Board of California (Board) has its very own podcast where we chat all things from new and changing legislation, to one-on-one interviews with Board management and Board members.

You can check out the [episodes](#) we currently have published on our website, and sign up for the [Subscriber Alerts "News"](#) topic to be updated when a new podcast episode is released.

## PRINT YOUR WALLET LICENSE

The Medical Board of California (Board) has developed a "Print Your Own" **Wallet License Generator** that allows individuals, with licenses in Current status, to generate their own Wallet License and print it wherever they have access to a printer.

Benefits:

- License Specific QR Code allowing interested parties to instantly view DCA Search License Profile page with real-time status information from any QR Code capable device.
- Available immediately, versus the 4-6 weeks previously required to receive plastic cards.
- Wallet License is generated as an electronic PDF file that can be sent to employers or others as needed.
- Saves the Board resources related to the generating, printing, and mailing of plastic cards.

The plastic cards are being phased out in the first half of 2022. To generate your own Wallet License, please use the link below to access the generator from our website: [Medical Board of California Wallet Card Generator](#)

# MONKEYPOX GUIDANCE

## KNOW THE SIGNS & LEARN HOW TO PREVENT AND SLOW THE SPREAD.

By the California Department of  
Public Health

### 1. KNOW THE SIGNS

People with Monkeypox (MPX) may first develop flu-like illness with fever, headache, muscle aches, exhaustion, and enlarged lymph nodes. A characteristic rash, which can appear like blisters or pimples in certain parts of the body, may occur a few days later. These blisters or pimples may be very painful. MPX may require hospitalization in rare instances. In some cases, no flu-like symptoms appear, and individuals only develop a rash. People with the virus may experience all or only a few of these symptoms. The illness may last for up to 2 to 4 weeks and usually resolves without specific treatment.

### 2. GUIDANCE FOR CHILD CARE AND SCHOOL SETTINGS

While MPX transmission among the general public and children remains low, the California Department of Public Health (CDPH) has provided [guidance for child care facilities and schools](#) to help reduce the spread of infectious diseases, including MPX, in those settings. To date, CDPH has not received any reports of MPX spread in these settings. The guidance outlines how to prevent transmission, provides best practices in the event of any potential MPX exposure, and recommends that schools and child care facilities [contact their local health department](#) for additional assistance.

### 3. SLOW & PREVENT SPREAD

There are several measures that can be taken to prevent infection with MPX virus:

- Avoid any physical contact like hugging, kissing, or sexual intimacy with people who have symptoms of MPX, including a rash or sores.
- Talk to sexual partner/s about any recent illness. Be aware of new or unexplained sores or rashes on your body or a partner's body, including on the genitals and anus.
- Do not share eating utensils or cups with a person with MPX.
- Do not handle or touch bedding, towels, clothing, or other fabrics that have been in contact with someone with MPX.
- Wash hands often with soap and water or use an alcohol-based hand sanitizer.
- Read the CDC's latest information on [safer sex, social gatherings and MPX](#) and CDPH's [Safer Sex & MPX fact sheet](#).

### 4. IF YOU HAVE SYMPTOMS

- Reach out to a health care provider to get checked out. If you don't have a provider or health insurance, visit a public health clinic near you.
- Take a break from sexual and intimate contact as well as attending public gatherings.
- Isolate from others you live with.
- Wear a mask and cover rashes if needing to be around others and when visiting a health care provider.

### 5. ADDITIONAL RESOURCES

CDPH provides a [webpage](#) with multiple resources, including a [Q&A](#), and [communications toolkit](#) with fact sheets, videos and social media assets for the public, community organizations, health care providers, and media outlets.

## PHYSICIAN EXTORTION SCAM: NOW POSING AS LAW ENFORCEMENT

The Medical Board of California (Board) is aware that scam artists have begun posing as **law enforcement officers**, as well as U.S. Drug Enforcement Administration (DEA) agents and Board staff calling California physicians as part of an extortion scheme.

Scammers posing as law enforcement may tell victims they have missed a court date as an expert witness and have a warrant for their arrest. Scammers posing as DEA agents may tell victims their license is suspended for illegal drug trafficking and the suspension means they will not be able to practice. The scammers may provide an "Agreement for the Bond and Protocols" that includes statements that licensees are not to share or disclose the investigation to any third party and agree to a bond fee payment of \$25,000.00.

The scammers' phone number may show up as the Board's toll-free number (800) 633-2322, or, if posing as law enforcement, they may impersonate actual law enforcement officers using their real names.

Please note, law enforcement officers, DEA agents, and Board staff will never contact physicians by telephone to demand money or any other form of payment. If you receive one of these calls, refuse the demand for payment. Please also consider the following:

If the caller is stating they are from the DEA, immediately report the threat using the ***DEA's Extortion Scam Online Reporting form***.

If the caller insists that they speak with you right away, tell them that you'll call them back directly. At this point, some scammers will offer you a phone number as a way to verify they are who they say they are. Don't call the number the scammers provided; instead call the Board' toll-free number at (800) 633-2322.

If the phone number of the caller appears to be the Board's toll-free number, it is recommended that you submit an online complaint with the Federal Communications Commission (FCC) using the ***FCC's Consumer Complaint form***.

# ADMINISTRATIVE ACTIONS

## FEBRUARY 1, 2022 – APRIL 30, 2022

### Explanation of Disciplinary Language and Actions

---

“Effective date of decision” — Example: “March 14, 2020” at the bottom of the summary means the date the disciplinary decision goes into operation.

“Gross negligence” — An extreme deviation or departure from the standard of care.

“Incompetence” — Lack of knowledge or skills in discharging professional obligations.

“Judicial review pending” — The disciplinary decision is being challenged through the court system, i.e., Superior Court, Court of Appeal, or State Supreme Court. The discipline is currently in effect.

“Probationary License” — A conditional license issued to an applicant with probationary terms and conditions. This is done when cause exists to deny the license application, but limitations can be put in place to protect the public.

“Public Letter of Reprimand” — A lesser form of discipline that can be negotiated after or in lieu of the filing of formal charges. The reprimand may include educational and clinical training requirements.

“Revoked” — The right to practice is ended due to disciplinary action. The license is invalidated, voided, annulled, or rescinded.

“Revoked, stayed, 5 years' probation with terms and conditions, including 60 days suspension” — “Stayed” means the revocation is postponed. Professional practice may continue so long as the licensee complies with specified probationary terms and conditions which, in this example, includes 60 days of actual suspension from practice. Violation of any term of probation may result in the revocation that was postponed.

“Stipulated Decision or Settlement” — A form of plea bargaining. The case is formally negotiated and settled prior to hearing.

“Surrender” — To resolve a disciplinary action, the licensee has given up his or her license — subject to acceptance by the Board.

“Suspension from practice” — The licensee is prohibited from practicing for a specific period of time.

## PHYSICIANS AND SURGEONS

### **AHMAD, ALI, M.D. (C 127870), NEWPORT BEACH, CA**

Excessively prescribed controlled substances to two patients; committed repeated negligent acts in the care and treatment of two patients; incompetence and failed to maintain adequate and accurate medical records in the care and treatment of one patient; and unprofessional conduct.
