

# 2003-2004 ANNUAL REPORT

# Medical Board of California

1426 Howe Avenue, Suite 54, Sacramento, CA 95825 • (916) 263-2389 • www.caldocinfo.ca.gov

## Executive Summary

The California budget crisis has affected the operations of state agencies, and the Medical Board is no exception. In the last three years, the board has lost 19 investigator positions, and 24 support-staff positions. The board has had to eliminate some programs, and prioritize and streamline others (see Division of Medical Quality summary, p. iv). In addition, the board has consolidated some of its activities and prioritized enforcement functions per SB 1950 (Figueroa, Statutes of 2002). At the same time, board members and staff have maintained their focus on public protection, and remain confident that this mandate is still being met.

### Medical Marijuana

After months of meetings with Medical Board staff, counsel from the Attorney General's Office, and other interested parties, the board at its May 2004 meeting voted unanimously to adopt a statement on physicians and medical marijuana. The statement incorporates and expands upon an initial article on the same topic published by the board in its newsletter in 1997, right after the passage of Proposition

215, known as the Compassionate Use Act. The updated statement again seeks to reassure physicians that, notwithstanding the possibility of a federal action against them, if they "use the same care in recommending medical marijuana to patients as they would recommending or approving any other medication, they have nothing to fear from the Medical Board." (See *Action Report*, July 2004.)

### Physician Recognition Program

This new program was established by the board in 2003 to recognize excellence in service by California physicians. Nominations were solicited, received and reviewed last year, and the first awards were conferred in January and May 2004. One award was given to an individual physician, and one to a group of physicians (see October 2004 *Action Report*, p. 6).

The members of the Medical Board are proud of the daily contributions of California physicians, as well as the extraordinary work brought to the attention of the board through nominations for this award. This state is

renowned for having some of the more eminent physicians in the nation and the world. Nominations are again being solicited, with the intent to make the conferring of this award an annual event.

### California Physician Corps Loan Repayment Program — Update

The California Physician Corps Loan Repayment Program encourages recently licensed physicians to practice in underserved locations in California by authorizing a plan for repayment of their student loans (up to \$105,000) in exchange for their service in a designated medically underserved area for a minimum of three years.

This year, the board received applications from 80 physicians, representing a cumulative request of almost \$10 million in loan repayments. There was significant diversity in the applicants' cultural background, the languages they speak, and the geographic locations of the practice settings. About \$1.6 million was available for distribution and awards were made to 19 awardees working in 25 practice settings around the state.

## 2003-2004 FISCAL YEAR

Physician & Surgeon Renewals	\$31,002,000
Application and Initial License Fees	\$4,589,000
Reimbursements	\$2,326,000
Other Regulatory Fees, Delinquency/Penalty/Reinstatement Fees, Interest on Fund, Miscellaneous	\$1,005,000
<b>Total Receipts</b>	<b>\$38,922,000</b>

### REVENUES & REIMBURSEMENTS

### BUDGET DISTRIBUTION

Enforcement Operations	\$17,963,000
Legal & Hearing Services	8,342,000
Licensing	3,322,000
Information Systems	2,572,000
Probation	1,895,000
Administrative Services	1,742,000
Executive	1,577,000
Diversion Program	1,057,000
<b>Total</b>	<b>\$38,470,000</b>

## DIVISION OF LICENSING

The Medical Board of California's Division of Licensing continues to promote public protection of healthcare consumers through the proper licensing of physicians and surgeons and affiliated healing arts professionals.

During this last year, the Division of Licensing issued 5,008 new licenses and renewed over 58,000 licenses. The physicians' and surgeons' licensee population in California increased to 117,806. The Division of Licensing also licensed or registered 397 affiliated healing arts professionals.

The tireless efforts of a dedicated workforce allowed the Division of Licensing to meet its mission within the mandated time frames for processing applications and responding to mail and telephone inquiries from consumers and licensees. During the past fiscal year, the otherwise routine tasks presented programmatic challenges and required monumental efforts due to the limited resources amid statutory change.

Activities to implement SB 1077 (Chapter 607, Statutes of 2003) began mid-fiscal year, to ensure the enactment of law on July 1, 2004. SB 1077 states that physicians who hold a retired license may no longer engage in the practice of medicine. However, the

physician who holds a retired license will continue to be exempt from payment of the renewal fee and continuing medical education requirements.

The Division of Licensing adopted Section 1314.1, Title 16, California Code of Regulations, to outline the standards and methodology used to review the curriculums of international medical schools to determine their compliance with sections 2089 and 2089.5 of the Business and Professions Code. During fiscal year 2003-04, the division assembled teams to conduct site inspections of Saba University and St. Matthew's University, both in the Caribbean. Site inspections began in mid-May with St. Matthew's satellite campus in Windham, Maine, extended to Saba University's basic sciences campus in the Caribbean, back to the states with a visit to four hospitals in Chicago where both Saba and St. Matthew's students complete some third- and fourth-year clinical training, ending with an inspection of St. Matthew's basic sciences campus on Grand Cayman Island. The teams are expected to present their findings and recommendations to approve or disapprove these schools to the Division of Licensing at board meetings in the near future.

## DIVISION OF LICENSING ACTIVITY

	FY 02-03	FY 03-04		FY 02-03	FY 03-04
<b>PHYSICIAN LICENSES ISSUED</b>			<b>SPECIAL FACULTY PERMITS</b>

Outpatient Settings	0	4
Podiatrist	76	2,082

## DIVERSION PROGRAM

The Diversion Program is a statewide, five-year monitoring and rehabilitation program. It is administered by the Medical Board of California to support and monitor the recovery of physicians who have substance abuse or mental health disorders.

The Diversion Program was created by statute in 1980 as a cost-effective alternative to discipline by the Medical Board. Diversion promotes public safety by encouraging physicians to seek early assistance for substance-abuse and mental-health disorders to avoid jeopardizing patient safety.

Physicians enter the Diversion Program by one of three avenues. First, physicians may self-refer. This is often the result of encouragement by concerned colleagues or family members for the physician to seek help. Second, physicians may be referred by the Enforcement Unit in lieu of pursuing disciplinary action. Finally, physicians may be directed to participate by the board as part of a disciplinary order.

During FY 03-04, 53 physicians were accepted into the program by the Diversion Evaluation Committee, signed a formal Diversion Agreement and entered the program. Of those, 37 physicians had no open cases with the board, 13 physicians were diverted from discipline, and an additional three physicians entered as a result of disciplinary orders.

Activity <sup>1</sup>	FY 02-03		FY 03-04		Type of Impairment <sup>1</sup>	FY 03-04	%
Beginning of fiscal year	269	262

<sup>2</sup> Prior-year adjustment (3) carried forward and added to FY 03-04 data. Data entry have caused a numerical inaccuracy, omitting participants who were either not

During FY 03-04, a total of 410 physicians were monitored by the Diversion Program. Of the 60 who left the program, one is deceased, 22 were unsuccessful, while 37

successfully completed the five years, with a minimum of three years of continuous sobriety and a change in lifestyle that would support ongoing recovery.

## DIVISION OF MEDICAL QUALITY

The fiscal crisis affecting the state of California resulted in a significant loss of staff for the Medical Board. Specifically, in the last three years, 19 sworn investigator positions were eliminated, as well as support staff positions statewide. This reduction led to the closure of a specialized unit in Southern California, which was focused on investigating the unlicensed practice of medicine. In addition, an investigator position dedicated solely to Internet prescribing investigations and an investigator dedicated to post-accusation investigative follow-up were eliminated. District offices which had typically been staffed with six sworn investigators were reduced to a staff of five, and the Probation Program also experienced staffing reductions.

Many of these reductions occurred at a time when the Enforcement Program was in the midst of fully implementing provisions of SB 1950 (Figueroa), effective last year. This bill established investigative priorities, called for the appointment of an enforcement monitor, dictated additional requirements for

public disclosure of malpractice actions, and required specialized medical review of quality of care complaints, which added workload to the board's Central Complaint Unit (CCU).

In response to this increased workload and reduced investigative staff, a supervising investigator and deputy attorney general from the Health Quality Enforcement Section of the Office of the Attorney General were reassigned to assist in the review and triage of incoming complaints in the board's CCU.

With a continuing awareness of the board's mandate of consumer protection and being mindful of the priorities outlined in SB 1950, board staff have implemented steps to reduce the number of cases being sent to the district offices for investigation. Some complaints have been resolved in CCU via "cease and desist" letters and the issuance of citations, while other complaints, e.g., violations involving criminal convictions, are being forwarded directly to the Office of the Attorney General.

(Continued on page v)

## Division of Medical Quality (Continued from page iv)

This careful scrutiny has resulted in fewer cases being referred to the field for investigation; however, the percentage of cases being referred for discipline has increased. This data suggests the board is maximizing investigative resources and focusing attention on those violations that have a direct impact on patient safety.

In addition, staffing losses at the Office of the Attorney General and budget constraints led to the board's review of how administrative actions are processed. Based upon this review, the board expanded its use of a letter of reprimand pursuant to Business and Professions Code section 2233. This option allows for resolution of cases immediately following the investigation where the evidence supports the imposition of a reprimand as an appropriate disciplinary outcome. Case disposition is more expeditious and less expensive to the board and respondent, while preserving prosecutorial resources for more egregious cases.

The number of complaints received this fiscal year shows a decrease. However, this is not due to a decrease in the number of complaints received by the board, but due to procedural changes in the way the data is collected and reported. As a result of changes suggested by the enforcement monitor during her review, the board is no longer counting "Notices of Intent" (reported pursuant to Code of Civil Procedure section 364.1), and reports made to the National Practitioner Data Bank by insurance companies in the total number of complaints received and closed. It was determined that these reports did not contain viable information to support the initiation of a complaint or, in some cases, were redundant to complaints already filed with the board.

SB1950 amended Business and Professions Code section 2313, and the board has added two new sections to the data which is reported annually. The first section provides more detailed

### REPORTS PER B&P CODE SECTION 805 — FY 03-04

Total Reports Received		157
<b>Peer Review Body Type</b>		
Health Care Facility/Clinic		98
Hospital	94	
Mental Health Facility	1	
Clinic	2	
Surgical Center	1

Cases Closed		69

information (including type of reporting facility and dispositions) on the Health Facility Reporting forms filed pursuant to Business and Professions Code section 805. The other section provides more detail (including the number of reports received by specialty) regarding medical malpractice settlements reported pursuant to Business and Professions Code section 801.

Although the state's fiscal crisis continues to affect the board's available resources, staff will seek ways to maximize efficiencies to offset limitations and ensure that public protection remains our highest priority.
